WE UNDERSTAND

At Cornwall Hospice Care, we know only too well the issues many people have around living with a terminal illness, whether they're a patient, carer, family member or friend.

That's why we've launched the Neighbourhood Hubs, an initiative to deliver care, rehabilitation and support in relaxed and informal surroundings, close to your patients home.

The hubs have been created to help people deal with the consequences of being diagnosed with a terminal illness.

WHAT YOUR PATIENTS CAN EXPECT FROM A VISIT TO A NEIGHBOURHOOD HUB

Our aim is to provide comfort, information, advice and peace of mind for patients and those around them. We'll offer appropriate advice and care to suit them. They'll be welcomed with refreshments and given time to talk, in confidence, with our expert staff in a place close to their home.

It's their hub and caters for their needs and wants. No question is too big or too small, we've had years of helping people through their 'What if...' questions enabling them to take control in the development of their health care.

REFERRING YOUR PATIENTS

You can refer your patients to one of our Neighbourhood Hubs so that they can see exactly what's on offer. We can then liaise with you to ensure that what we are offering is suitable.

The Neighbourhood Hubs, like all of the services provided to terminally ill patients and their families by Cornwall Hospice Care, will be free. This is thanks to the support of the people of Cornwall who fundraise and leave the charity legacies in their Wills.
